

FREE HALF-DAY COURSE FOR W.A.S/AFRAQ 2025 DELEGATES

Commercial Aquaculture Business & Production Management

Africa's aquaculture sector is growing fast - but a key challenge remains:
A shortage of business and production management skills.

With over a decade of experience supporting fish farms across Africa, ACMS has helped transform emerging fish farm operations into thriving enterprises. Backed by the Gatsby Foundation, ACMS is now launching its Commercial Aquaculture Business and Production Management Course through the new InDepth Online Platform.

To mark this launch, W.A.S/AFRAQ 2025 delegates are invited to attend a free, face-to-face foundation session.

WHO IS ACMS?

ACMS is a trusted aquaculture development partner working across Africa. With a strong focus on commercialisation and mentorship, ACMS empowers farmers to move from technical fish farming to successful aquaculture enterprises. Over the past decade, ACMS has worked with more than 45 farms, delivering measurable growth through practical, farmer-first education.

WHO SHOULD ATTEND?

Emerging and commercial farmers, feed companies, academics, government officials, policy makers, and extension officers.

WHAT YOU'LL LEARN:

1. Key concepts in aquaculture management (feed, species, site)
2. Practical production techniques
3. The value of data: what to collect and why
4. How to run calculations (growth, FCR, forecasting)
5. Understanding what affects feed conversion ratios

Interactive and practical, this course is built on proven methods that have helped partner farms increase production by 260% and improve feed conversion ratios from 1.86 to 1.42.

DATE:	24 June 2025
TIME:	14h00 - 17h00
VENUE:	Speke Resort, Munyonyo, Entebbe, Uganda
COST:	FREE
REGISTRATION:	Closes 23 June 2025
