

AFRAQ25 Special Session

"Integrated Multi-Trophic Aquaculture (IMTA): New Species and System Technologies"

Abstracts are invited on the most up-to-date research and commercial approaches in Integrated Multi-Trophic Aquaculture (IMTA), Aquaponic and Sandponic systems. Freshwater and marine species grown in integrated land-based systems and in coastal environments will be presented in this session.

Session Chair: Prof. Kevan Main - kmain@mote.org
