

## GRAND FISH FEED PRODUCTION SEMINAR

Nov.14, 2023: Room 1, 17:40 - 19:40 PM

### Aquaculture Africa 2023

Nov. 13 – 16, 20-23

Mulungushi International Convention Centre (MICC),  
8025 Great East Road, Lusaka, Zambi

This short and informative event is in conjunction with the African Chapter of the World Aquaculture Society.

This event is for fish feed users as well as others interested in methods used to create a wide range of high-quality aquaculture feeds and their use. Nutrition of aquaculture feeds, production methods and final product considerations and use of feed will be discussed in this seminar.

Join the staff and colleagues of Grans Fish Feed to review advanced production processes and aquaculture feeds made by the same.

If attending please inform us at [info@grand-aqua.com](mailto:info@grand-aqua.com) or see us at our booth at the show in the exhibition hall. More information on Grand Aqua at [www.grand-aqua.com](http://www.grand-aqua.com). Early registration for WAS at [www.was.org](http://www.was.org).
