High School Diploma in Human Sciences

Leonardo da Vinci High School, Chiavenna

2015 – 2020

## INTERESTS

Nature

Wildlife

Travel

Sport

Music

Photography

Currently living in Morocco, I graduated in Science and Technologies for Nature, with a strong interest in the environment and wildlife conservation. I continued my academic path with a Master's in Wildlife and Human Dimension at the University of Insubria, with the goal of pursuing environmental education, especially in relation to wildlife crime.

Curiosity has always driven me to explore many different experiences in every field, including sports, work and new opportunities beyond study and employment. Thanks to the experiences I have had and my strong desire to connect with others, I easily build new relationships and am always willing to challenge myself.

Organised by: Chiara Grasso

## **COMMUNICATION SKILLS**

Good interpersonal and teamwork skills, developed mainly through seven years of experience as a youth animator in the parish and through various volunteering experiences. Strong motivation and good ability to communicate in multicultural environments, also thanks to travel experiences and work in the hospitality sector, which allowed me to interact with people from different countries.

## **ORGANISATIONAL AND MANAGEMENT SKILLS**

Good organisational skills and sense of responsibility, also developed through the role of head animator in community activities, with the duty of managing and supervising the activities organised during the day.

This is complemented by my general work experience and, in particular, my teaching experience in organising activities and supporting students' education. In the past, I was Student Representative, Department Representative, and Joint Committee Representative at the Department of Earth Sciences, University of Pavia.

## **OTHER SKILLS**

I have been practising trekking and mountain climbing for passion for several years. Over the years, I played for five years in a volleyball team. I also practised competitive swimming for almost two years and at the same time played the French horn in the Samolaco band for seven years. From middle school through high school, I attended two horse-riding courses. In my final year of high school, I started boxing.

I enjoy sport in general, so wherever I go I try to stay active, whether it is surfing, climbing, swimming or hiking.
