## **Hobbies/Leisure activities**

Koi carp on average 1 hour per day

Welding 20 hours per week

Tree felling about 20 per year

## **Explanation of work experience**

Verom Oss bv: from 1996 to 2001

Was an after-school job (about 20 hours per week) from 8-2001 to 2-2002 full-time where I worked as an all-round maintenance technician such as: maintenance of woodworking machines, incinerator, buildings, small tools, small construction work, electric welding and building and furnishing exhibition decors. Reason for leaving wanted to get out from under the wings of the family

Mostako steel construction: from 2-2002 to 9-2004 full-time

Where I worked as a machine fitter, with activities such as welding (Mig/mag tig electric), cnc punching, cutting plates up to 50mm, sawing, cutting, transport,

warehouse management and assembly service. Products such as steel spiral staircases, balcony railings, works of art. Reason for leaving: found a new challenge with regard to

fire brigade.

Voluntary fire brigade Oss post megen: from 2003 to 1-2011

After obtaining my fire guard papers, I went on call, where I developed into a sub-fire chief.

reason for leaving: moved outside the service area

VTN Safety Technology Netherlands: from 9-2004 to 1-2006 full-time

Where I grew from a personal breathing air fitter to an all-round breathing air fitter and occasionally helped out in the gas suit department, my

duties were maintenance and revision of breathing air equipment, maintenance of compressors 300 bar, installation of breathing air workshops, gas suit repair and inspection. Reason for leaving No contract possible and further growth to fire brigade

Organon company fire brigade: from 2-2006 to 8-2007

Where my main task consisted of prevention work of all buildings (laboratories, chemical production areas, offices, cleanrooms) at various locations and in addition

maintenance of breathing air and fire brigade equipment, dangerous unloading of trucks (ammonia 100%) supervised as a fire guard.

Reason for leaving after takeover no more contract possible.

South Holland South safety region: from 9-2007 to 8-2018

As head fire guard in the repressive service with a team of 9 people. My work consists of extinguishing fires and providing assistance in the event of accidents and in addition I have the specializations fire brigade diver (regional water accidents),

large fire brigade driver, gas suit wearer,

aerial platform driver/operator, pump attendant.

Marco Metaal : from 5-2012 to 5-2013

Where I worked as a side job next to the fire brigade 2 to 3 days a week in the production of stainless steel and steel machine parts and blasting/spraying vehicles

for under bridges. my work included mig/mag electric and tig welding. making and assembling constructions. Reason for leaving not enough work anymore.

De Langstraat garden machines : from 12-2013 to 6-2015

Where I worked as a side job next to the fire brigade 2 to 3 days a week as a maintenance mechanic and seller of various garden and park machines and mobile equipment, both for maintenance and repair, where my strong point was with the larger machines. Here too I did welding repairs.

Reason for leaving started my own company.

Metecho: from 2-2015 to present

Where I work in my own company with steel small constructions and make interior articles (tables, cabinets, lamps, beams for extensions, doors, facades, stairs, stair railings, etc.) with various welding methods (tig, mig, mag and electrodes) and various finishes.

Calculate, draw and make constructions.

but also hire myself for safety services regarding fire-related goals.

Volunteer fire brigade middle west brabant post kaatsheuvel: 4-2016 to present

Where I have had a permanent position as a crew member since 1-4-2017. My work consists of extinguishing fires and providing assistance in the event of accidents.

with the specialty of driver/pump attendant.

- Overumansfisk fish technician 9-23 to 3-24 all-round employee: system technology, care, breeding of mother/egg up to 60/100 grams
