

# Quality Water, Quality Aquaculture

## Water Chemistry and Biology in Aquaculture Systems Workshop

This USAS-sponsored pre-conference workshop will explore critical aspects of water quality, essential for successful aquaculture systems and sustainable practices in the industry. Join us to gain invaluable insights and learn about technologies and practices to enhance production.

## Registration Fees

- Base price: \$150 (Non-members)
- USAS, NSA, NAA or AFS-FCS Members: \$75
- Student Members: \$40

To register, visit the World Aquaculture Society Website for Aquaculture America 2026:

<https://www.was.org/meeting/code/AQ2026>

## Topics include:

- Filtration and systems design
- Monitoring and instrumentation
- Water quality and animal health
- Emerging technologies for production

Monday, February 16<sup>th</sup> 2026  
1:00 PM – 5:00 PM

Aquaculture America 2026  
Paris Hotel in Las Vegas, NV
