## Conference Venue

Tunisia is the northernmost country in Africa and part of the Maghreb region of North Africa. It is bordered by Algeria to the west and southwest, Libya to the southeast, and the Mediterranean Sea to the north and east. Known for its tourism, Tunisia offers countless attractions, including archeological sites (dating back to the 9th Century BC). Its 1,300 km coastline along the Mediterranean boasts countless pristine, sunny and sandy beaches and resorts. The Southern part of the country features the Sahara Desert landscape.

The Conference will take place at the beautiful coastal town of Hammamet at Medina Hotels & Resorts /Medina Mediterranea. The venue is a uniquely modern leisure centre with stunning attractions providing unforgettable experiences! The Medina exhibition centre is one of the largest convention centres in Tunisia. It has a 6000m<sup>2</sup> surface area comprising three modular halls decorated in a Tunisian Roman villa style. The Medina congress centre offers a wide range of rooms with state-of-the-art audio-visual equipment. Visit: <https://afraq24.com/hotels>

The conference offers a great opportunity for aquaculture researchers, practitioners, decision makers and other stakeholders to meet, network and discuss all aspects of aquaculture in Africa. Exhibitors from all over the globe are expected to exhibit their products in the state-of-the-art exhibition Center. Participants will also have the opportunity to explore some famous touristic attractions in Hammamet and countrywide. Special excursionary or aquaculture tours will also be arranged to nearby marine fish farms (both large, medium and small scale); aquafeeds facilities, fish markets and some aquaculture R&D centres. Be sure to schedule time for this unique scientific, business and social event!

## AFRAQ24 Programme Themes

AFRAQ24 technical program will aim to cover developmental issues including latest research and developmental aspects on aquaculture in Africa. The thematic plenary and technical parallel sessions will comprise submitted oral and poster presentations in English, French, Portuguese and Arabic. AFRAQ24 will feature an international trade exhibition, industry forums, student sessions and activities, satellite workshops (and training sessions) and various meetings/forums on aquaculture development in Tunisia and Africa. The international conference will be centered around the theme "Blue Farming: New Horizons for Economic Growth", and will feature lessons learnt from Tunisia and other countries on the role sustainable aquaculture continues to play in building sustainable food systems for economic growth.

Sample topics will include: (This is an initial theme list, subject to change)

- Aquaculture Investment and Financing
- Aquaculture & the Blue Economy
- Feed, Nutrition & Physiology
- Species, Genetics & Reproduction
- Aquatic Animal Health, Welfare & Biosecurity
- Environmental Management
- Sustainability , Livelihood & Nutritional Security
- Processing and Value Addition
- Food Quality & Safety
- Aquaculture Marketing
- Gender and Youth Development
- Aquaculture Engineering
- Freshwater Aquaculture
- Brackishwater Aquaculture
- Mariculture
- Ornamental Fish Culture
- New/Innovative Systems and Practices
- Aquaculture Certification & Standards
- Country Case Studies
- Aquaculture Networks & Associations
- Aquaculture Governance
- Other Special Topics

Des sessions spéciales liées au développement de l'aquaculture en Afrique seront incluses dans la grille du programme.

# CALL FOR PAPERS - SUBMIT YOUR PAPERS NOW!

## DEADLINE: 15 October 2024

**AFRAQ24 encourages the submission of high quality oral and poster presentations.** We strongly encourage authors to consider poster presentations because poster sessions will be an integral part of the program. Papers submitted for “oral presentation only” may not be accepted as oral presentations due to the limited number of available time slots. English is strongly encouraged, but three other official languages (French, Portuguese and Arabic) are accepted. **PowerPoint Presentations/Slides are strongly encouraged in English for everyone to follow through.**

Each oral presenter shall be entitled to no more than 20 minutes comprised of 15 minutes for a presentation, plus 5 minutes for questions. Authors of studies involving proprietary products or formulations should present this information in workshops or the trade show. Oral presentations can only use PowerPoint. Overhead projectors, slides and video players will not be available or allowed.

All presenters are required to pay their own registration, accommodation and travel expenses. AFRAQ24 cannot subsidize registration fees, travel or hotel costs.

## INSTRUCTIONS FOR PREPARATION OF ABSTRACTS

**Extended Abstract Format – Please refer to the sample.**

- TITLE OF PAPER :** The paper title is printed in CAPITAL LETTERS, with the exception of scientific names which should be Upper/lower case and italicized. Scientific names should not be preceded or followed by commas or parentheses or other markings.
- AUTHOR(S) :** The first name should be the presenting author. Use \*after the presenting author. Type in upper/lower case.
- ADDRESS AND EMAIL :** Type only the presenting author's institution, address and email. Type in upper/lower case.
- MAXIMUM LENGTH :** One Page
- PAGE SIZE :** Standard 210mm x 297mm A4 paper (portrait)
- MARGINS :** 1-inch margin throughout(left/right/top/bottom)
- SPACING :** Single spaced
- PARAGRAPHS :** Paragraphs should be separated by a blank line and should not be indented.
- FONTS :** Character fonts should be 12 point type.
- FIGURES & TABLES :** Figures and tables are highly recommended. They should be reduced to the appropriate size for a one page abstract and should be clearly readable at the reduced size in black print only. The reduced figures and tables should be included in the abstract in camera-ready form.
- MEASUREMENTS :** Use metric units of measurement. When needed, English equivalents may be given in parentheses.

EVALUATION OF JUVENILE AUSTRALIAN RED CLAW CRAYFISH (*Decapoda quadricarinatus*) FED PRACTICAL DIETS WITH AND WITHOUT SUPPLEMENTAL LECITHIN AND/OR CHOLESTEROL

Red claw crayfish (*Decapoda quadricarinatus*) are one of more than a hundred species of crayfish found in the world. They are highly valued for their tolerance and lack of a larval stage, red claw may be the best candidate for aquaculture in the United States. Red claw are only being investigated as an aquaculture species in the United States. However, very little is known about their nutritional requirements and practical diet formulations. No studies have been conducted to determine the dietary requirements of juvenile red claw and cholesterol to be added to their diet, these two nutrients are essential for growth and cholesterol are very expensive. Since diet costs can be as much as 70% of the total cost of an aquaculture enterprise, it is imperative that the least expensive diet be formulated. The present study was conducted to determine if cholesterol and lecithin needs to be added to a practical diet for red claw crayfish.

An 8-week feeding trial was conducted in a recirculating water system with seven 200-liter juvenile red claw crayfish (0.2 g) per culture unit, each stocked in a 200-liter mesh culture units. Individual units were housed within fibreglass tanks, each containing aeration system, water filter, and mechanical filter. Water temperature was maintained at 22-24°C and lighting was provided for a 12-hour photoperiod cycle. Ammonia, nitrite, nitrate, pH, and water hardness were checked daily. Crayfish were fed three times per week. The growth performance of juvenile red claw was compared to those with or without cholesterol and lecithin. Other practical diets included menhaden fish meal, soybean meal, shrimp meal, wheat flour, vitamin and mineral mix, pellet binder, cod liver oil, and corn oil (Table 1).

After 8 weeks, red claw crayfish fed a practical diet without cholesterol (Diet 1) had significantly ( $P < 0.05$ ) lower final weight, percentage weight gain, and specific growth rate (SGR) compared to crayfish fed all other diets (Table 2). These results indicate that a practical diet containing 2% cod liver oil and 1% lecithin and having no cholesterol appears to be sufficient and that lecithin may not be necessary for juvenile red claw diets.

## Engaging with Industry

The Aquaculture Africa events are all about communication with the sector. AFRAQ24 will feature a special international trade exhibition, where Tunisian and international organizations will present their latest technologies, products and services. Both Standard and Corner booths will be available. Each booth is 6m2 (2x3m) and features walls, carpet, two chairs and one table, spotlights, one power outlet, fascia identification sign and two free passes for the conference. We can provide meeting points for industry associations, organization/industry panels or B2B meetings, farmers forums etc. Organization/industry panel meetings will take place around the trade exhibition, and aquaculture tours will be organized after the Conference.

## Platform for Developmental Organizations

AFRAQ24 will also be a meeting hub for developmental agencies, NGOs and institutions in Africa – where they can hold plenary talks, meetings, seminars, investment forums and satellite workshops of African aquaculture projects and activities.

## Networking for Students

Special forums and events will be arranged for students attending AFRAQ24 to enable networking and exchange of ideas amongst students and student mentors. The forums/ events will have a dedicated programme that includes a special student reception, student contests/awards. Students receive the full registration package plus the student reception. To qualify for the student rate, a copy of your Student I.D. is required. To learn more on WAS Student Program, visit <https://www.wasstudents.org/>

## Farm Tours

Aquaculture tours have been organized at some interesting fisheries and aquaculture facilities around Tunisia which include large scale aquaculture operations in the Mediterranean, R&D centres, aquafeeds facilities and other aquaculture tours of interest. More details available on the event website: [https://www.was.org/Meeting/pdf/AFRAQ24\\_TunisiaAquacultureTours.pdf](https://www.was.org/Meeting/pdf/AFRAQ24_TunisiaAquacultureTours.pdf)

## FULL CONFERENCE REGISTRATION INCLUDES:

- Admission to all sessions (including reception), seminars and the trade show.
- Conference bag and Show Directory
- Refreshment breaks (including lunch)
- Abstract App and/or Abstract Book

\* To qualify for Member Rate, you must be a WAS member in good standing

Trade Show Pass only –  
Valid whole period: USD30
